## Health-check

GrillaTech

Companies are under pressure to do more with less and need to ensure that they are using technology effectively and efficiently. One way is to leverage our portfolio of pre-packaged installation, upgrade and health-check services.

Getting the best from existing infrastructure is the starting point for your clients to improve, evolve, and grow. Our health-checks are a quick and convenient way of identifying whether your customers have any configuration or security issues on their systems. You can ensure your customers get the most from solutions they already have, identify new opportunities and increase customer satisfaction and retention.

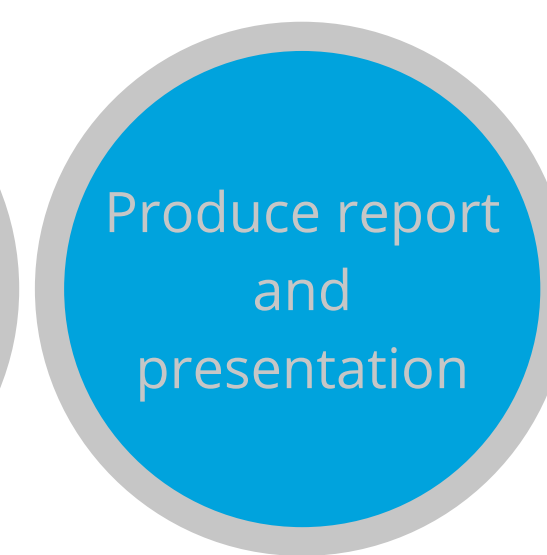

Go to market initiatives
