

Companies are under pressure to keep up to date with product training for day-to-day use without the distraction of expensive certified training.

Our skills transfer packages can ensure that your team are up and running quickly with the foundation training they need. Covering the most important aspects of the product, our experts work with your team to ensure their day-to-day operational effectiveness.

Skills transfer:
User training for staff
Technical and non-technical packages
Administration and troubleshooting tasks
Includes review process and procedures

We are focused on making our channel partners look good. Check out <https://grillatech.com> to see how we can help to build success with you.

Skills transfer

Skills transfer topics

- Overview of existing set-up and configuration
- Review basic administration and helpdesk
- Troubleshooting techniques - reviewing logs and statistics
- Keeping software up to date and applying hotfixes
- Updating
- Adding licenses
- Advice on configuration changes and create new (virtual) servers
- Review health monitors and advise on creating custom monitors
- Advise on hardware lockdown security

Skills Transfer sessions are ideal for educating your team on the fundamentals and understanding of your environment, however, these are not a substitute for official training and course material or exam preparation isn't included. If Official Training is more suitable for your needs then please contact us

See how Grillatech is working with our partners to develop a sustainable footprint, and support our customers and suppliers to reach the same goal.
